

Vurbo.ai

Transcribe, Translate, & Summarize Any Conversation With AI

AI-Powered Audio Solutions

Easily record, transcribe, and summarize live audio for meetings, speeches, and classrooms. Compatible with various IPEVO hardware options and available for Windows and MacBook.

*Mobile apps will be launched soon.

AI Real-Time Transcription and Translation

3-Second Summaries for Meetings and Events

All-In-One Text Assistant for Refinement, Translation, Summarization, and Text-To-Speech (TTS). Easily Convert Text Into Audiobooks or Digital Archives.

Real-Time Bilingual Transcription, Translation, and Speech Synthesis (Supports 90+ Languages)

Unlimited GPT 4.0 Turbo Professional Features

Save Up To 70% of Your Time

Transcribe

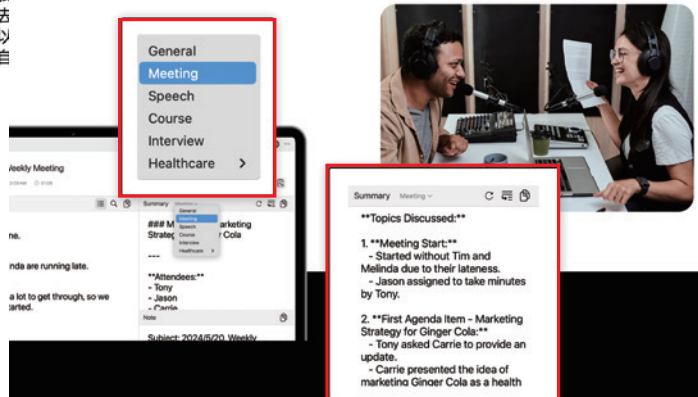

No manual note-taking needed. Supports dual-language recording, real-time transcription, and translation in over 90 languages, with AI-powered summaries generated in 3 seconds.

00:17

And then unlike the usual scenario with around 6 to 8 people, which is quite common, in the 6 to 8 person market, actually our TOTEM 360 is 360 degrees, it is All-in-one, which means that once its power is plugged in, after that, it also has 4 microphones, 4 speakers, and 4 microphones. It has a speaker with a camera option, so basically with just one unit, it can be the same at every position in the middle, so you don't need to adjust the audio, it doesn't need it on its own.

然後比一般會場景裏面有一種大概6到8人，這個很常見，但在6到8人會市場裡面，其實我們 TOTEM 360 這是 360 度，它是 All-in-one，所以表示它只要它的電源插上去的喇叭，所以不需要，他自

Real-Time Transcription and Translation

Instantly transcribe and summarize with real-time translation, boosting communication efficiency

Built-In Summarization Template

Built-in structured meeting summaries from audio or video for various scenarios like meetings, learning, interviews, physician consultations, lectures, and more.

Instant Translation in 90+ Languages

Instantly captures and translates every term, enabling seamless cross-language dialogue.

2-Way Translation

Enhance your cross-language communication. Use voice or text input for real-time translation and hear instant voice output. Supports over 90 languages for smooth, efficient conversations with anyone, anywhere.

*The Pro version includes built-in switchable GPT-3.5 and GPT-4 Turbo models

Your AI-Powered Summary Solution

3-Second Summaries for Meetings and Events

Meetings

Capture key points instantly for clear, efficient communication.

Summary Meeting ▾

Content Highlights:

- Product Features and Capabilities:**
 - The discussion involves a 360° all-in-one device, Totem 360, which includes four microphones and four speakers.
- Usage Scenarios and Settings:**
 - The Totem 360 is ideal for meetings with six to eight people, schools, and small classrooms.
- Awards and Recognitions:**
 - The 360° camera won a prestigious Gold award in Taiwan, highlighting its market credibility and advanced features.

Conclusions:

- Product Suitability:** The Totem 360 device is highly suitable for smaller meeting rooms, classrooms, and educational settings, providing clear sound and image capture.

To-Do List:

- Testing and Improvement:** Continue API testing and refining technology to ensure stable performance.
- Customer Feedback Analysis:** Collect and analyze feedback from educational institutions to ensure the device meets their requirements.

Courses

Understand course objectives and tasks quickly, absorbing key points efficiently.

Summary Course ▾

Course Theme:

Advanced Meeting Room Technology

Learning Objectives:

- Understand the functionality and setup of the Totem 360° device.
- Learn about the practical applications of AI technology in meeting environments.
- Identify the optimal configurations for different meeting sizes and spaces.

Key Points:

- The Totem 360° is an all-in-one device designed for smaller classes and general meeting scenes of 6-8 people. It includes four microphones and four speakers, providing consistently high sound quality across various positions.
- Using its built-in AI technology, the Totem 360° camera can automatically recognize and focus on speaking participants. There are four modes available within its internal software to optimize audio-visuals, innovative design and functionality. It supports Bluetooth pairing and can be used in various settings, including schools and administrative roles.

Related Resources:

- Product manual for Totem 360°
- AI head recognition technology documentation
- Recording and playback optimization guides

Post-Class Tasks:

- Review the product manual and familiarize yourself with the device setup and four operational modes.
- Conduct a small test meeting using the Totem 360° to practice switching between video and audio modes.

Healthcare-Medical Consultation

Efficiently document entire consultations, quickly capture symptoms and enhance patient communication.

Summary Medical Consultation ▾

Subject: Follow-Up on Bone Fracture Recovery

Condition:

- The patient's bones are in good condition as per the latest X-ray, indicating the fracture is healing.
- Fracture not fully healed yet as it's been only six weeks. Normal healing time for fractures is approximately three months.

Relevant Knowledge:

- Bone fractures typically require around 12 weeks to heal completely.
- Proper nutrition, such as increased intake of milk and soy milk, can promote bone healing.

Care and Precautions:

- Use of Crutches:**
 - Continue using crutches to avoid putting undue pressure on the affected bone until fully healed.
- Nutrition:**
 - Increase consumption of calcium-rich foods like milk and soy milk to support bone healing.

- **Wound Care:**

- It is now safe to expose the wound to water.

Important Note:

- Strong emphasis on not discontinuing the use of crutches prematurely to avoid re-fracture.
- Ensure all instructions are followed closely for effective and timely recovery..

Follow-Up:

Next visit scheduled in two months for X-ray to confirm complete bone healing before resuming normal pressure and activities.

Healthcare-Explanation of the Preoperative Procedure

Provide clear information on surgical procedures and comprehensive post-op care.

Summary Explanation of the Preoperative Procedure ▾

Consultation Overview

Patient: "Auntie" **

Topic: Bone Fracture Follow-Up and Care

Details of the Condition:

- Current Status:** The patient's bones are starting to heal, but have not fully recovered yet..

Past Medical History:

There is no information provided about the past medical history specific to this condition.

Allergies:

No allergy information provided.

Medications:

- Prescribed Medication:** To manage pain on an as-needed basis.

Surgery and Procedures:

- Surgery Method:** No surgery is mentioned or indicated in this context as the treatment is non-surgical.

Care Instructions and Precautions:

- Crutch Usage:** Continued use of crutches is crucial to avoid re-injury.
- General Knowledge:**

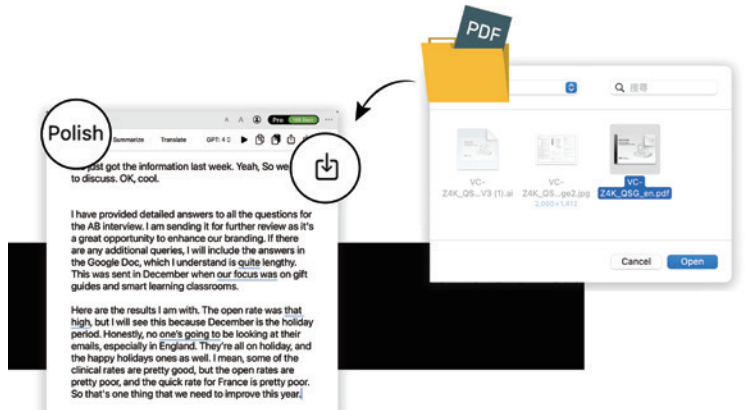

Cost and Insurance:

No specific information provided regarding costs or insurance coverage.

Vurbo.ai Offers Scalable and Fully Customizable Intelligent Summarization Modes to Adapt to Various Needs and Use Cases

Text Assistant

Easily handle daily writing or import hundreds of PDF pages. Powered by the latest GPT technology, Vurbo.ai offers advanced text processing, editing, translation and summarization. With text-to-speech (TTS), convert text into audiobooks or digital archives effortlessly.

◆ GPT-Powered Text Enhancement and Translation

Paste text or import PDF files to quickly process large volumes of text. Whether it's article enhancement, summarizing lengthy content or translating entire documents, save time and achieve efficient output.

◆ Convert Text to Natural-Sounding Audiobooks

Convert text into natural, fluent speech to easily create high-quality audiobooks. Digitize your text files for easy, on-the-go access.

AI Chat

Ask questions via voice or text input, and Vurbo.ai uses GPT-powered data integration and analysis to quickly provide the information you need. Whether it's for work data or everyday information, get instant responses whenever you need them.

Please help me plan a one-week exercise program.
