## Your K-12 EdTech Partner

Five Star was born in 2005 out of an abundant need for technology support in the classroom. Educators should be able to focus on teaching their students instead of stressing over cybersecurity threats and constantly changing tech tools. We believe that everyone has the power to innovate, which is why our mission is to serve as a catalyst for innovation and to empower school leaders to achieve their vision of excellence for their students.

Cybersecurity Consultation, Onsite and Remote Support, Engineering Solutions, Hardware Procurement, Installation Services, and A/V support through Empower Learning.

Grant Writing & Support, Live & Virtual Workshops, Learning Strategies (AI, STEM, UDL & beyond), AI Policy, Coaching, Higher Education, and Google Education Partner.

A comprehensive teacher and staff evaluations platform built to help streamline observations, track progress, and aid in constructing targeted growth plans.
