AI in Education: A Critical Approach for EPP Faculty and Their Students

PREPARING EDUCATORS FOR EXCELLENCE IN AI

Our AI in Education learning experiences explore the transformative potential of AI tools, focusing on their integration into educator preparation programs. By participating in this professional learning opportunity, you will be equipped to guide the next generation of educators in harnessing the power of AI while maintaining a focus on critical thinking, ethical decision-making, and student-centered learning.

UNDERSTAND THE LANDSCAPE

Gain insights into the rise of educational AI tools and their applications for pre-service teachers.

HARNESS THE BENEFITS

Learn how AI tools can enhance teacher training, support iterative learning, and improve instructional design skills.

DEVELOP CRITICAL EVALUATION SKILLS

Engage in hands-on activities to critically assess AI-generated content

FOSTER ETHICAL AI USE

Discuss the importance of human oversight and ethical considerations in using AI tools in education.

EMPOWER FUTURE EDUCATORS

Explore strategies for preparing pre-service teachers to effectively and responsibly utilize AI tools in their classrooms.

EQUIP YOUR FACULTY & PRESERVICE TEACHERS WITH KEY AI KNOWLEDGE

Be prepared to use AI effectively and ethically.

Understand how to utilize AI to reduce workload and increase focus on students.

Adapt materials using AI tools to specific student needs.

Create more inclusive learning environments using AI tools

Possess baseline AI literacy to understand how AI is being used in the classroom and how to protect students from potential dangers.

"AI brings educational technology to an inflection point. We can either increase disparities or shrink them, depending on what we do now." —Dr. Russell Shilling

OUR SERVICES

We offer flexible and customizable professional learning experiences grounded in research and designed to meet the unique needs of your educator preparation program.

ON-DEMAND LEARNING

- Access anytime, anywhere: Engage with a collection of self-paced modules, videos, and resources.
- Personalized learning pathways: Select the topics and modules most relevant to your program's goals and faculty needs.

LIVE IN-PERSON AND VIRTUAL WORKSHOPS

- Participate in live online and in-person sessions led by experienced educators.

FLEXIBLE APPROACHES

- Customize workshop topics and focus areas to align with your program's specific needs and priorities.
- Combine on-demand learning with synchronous workshops to fit your program's needs and schedule.

COMPREHENSIVE SUPPORT

- We collaborate with you to identify your program's specific needs and goals.
- We tailor our professional learning experiences to address your unique challenges and priorities.
- We provide ongoing support and resources to assist as you explore ways to utilize and bring AI tools to your students.
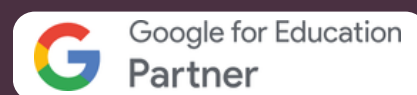

BUILDING THE NEXT GENERATION OF K–12 EDUCATORS

With our K-12 teaching and leadership experience, we provide specialized professional learning for teacher preparation and transition to teaching programs. We help grow the practice of future educators and equip them with essential skills needed for tomorrow's classrooms.
