Connecting Responsibly with

DIGITAL LITERACY

FIVESTAR

SHAPING CONSCIENTIOUS ONLINE BEHAVIOR!

Ready to level up your digital skills? Join our Digital Literacy workshop series that's all about navigating the digital world with confidence! In today's tech-savvy age, understanding digital citizenship, copyright laws, cybersecurity, and online safety is critical for both you and your students. This series includes discussion of real-life scenarios and challenges experienced by educators and practical strategies for keeping students safe online. It is a game-changer for anyone who wants to stay ahead in the tech game!

DELIVERY MODES

Workshops can be delivered onsite, virtually, or a hybrid of both.

WORKSHOP CUSTOMIZATION

All of our workshops can be customized to fit your unique goals.

TAKEAWAY RESOURCES

All workshops come with takeaway resources to use immediately.

WHY ATTEND OUR WORKSHOP SERIES?

Creating Safe Online Environments: Explore strategies for maintaining a secure online learning environment for students.

Empowering Digital Citizenship: Equip teachers to instill responsible online behavior in students.

Navigating Copyright Laws: Provide clear guidance on copyright laws and fair use policies.
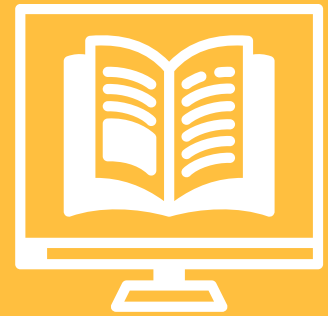

Enhancing Cybersecurity Awareness: Educate on cybersecurity threats and best practices.

Promoting Digital Literacy: Foster essential skills for success in a digital world.

FIVE EDUCATOR WORKSHOPS

- Keeping Your Students Safe Online
- Digital Citizenship
- Copyright for Educational Use
- Cybersecurity for the Educational End User
- Fostering Student Digital Literacy Skills

The modality of these workshops is your choice. You can choose from virtual, onsite, or a hybrid of both. Onsite sessions accommodate 30 participants and will be done in ½ day increments. Virtual sessions accommodate up to 250 participants, and are 1-hour each. Recordings are available for virtual sessions only.

VISUALIZE THE PROGRESS

Digital Learning Survey: The statements used in this survey were developed in partnership with DELL Technologies and ISTE. This survey is FERPA, COPPA, and CIPA compliant.

Digital Learning Dashboard: Gain insight into the digital literacy within your school community and view results from multiple stakeholders (students, caregivers, and educators). This dashboard is FERPA, COPPA, and CIPA compliant.

Data Discovery Workshop: Dive into the depths of your data to uncover valuable insights and opportunities, driving informed decision-making and strategic growth for your organization

SUPPORT YOUR LEADERS

Gain the knowledge and resources needed to promote responsible digital behavior and create a secure learning environment for all. Leadership sessions are available in both 90-minute and 1-hour virtual intervals to accommodate your schedule effectively.
