

Scale Computing: The Industry-Leading VMware Alternative for Education

Customers looking for VMware alternatives can transfer up to a year of their existing license when moving to the award-winning Scale Computing Platform.

Scale Computing invites VMware customers to embark on a technology innovation and cost-saving journey with our Seamless Switch Program. This initiative is designed to provide a seamless transition for making the shift from VMware to Scale Computing by:

- providing coverage for their remaining term at no additional cost.*
- free migration tool access to enhance the transition experience.

 Deployment » Deploy in under an hour.	90% savings with zero touch provisioning (ZTP)	 Scale-Out » No need to over-provision because scaling out can be done quickly and easily.	50% savings over 3-5 years
 Training » No certifications are required.	\$0	 Downtime » Practically eliminate all downtime.	83-97% reduction in recovery time
 Software Licensing » Full version with all features and updates available.	65-75% savings in licensing costs, roughly \$50,000	 Management » Manage the entire system from a single interface.	>75% time saved managing infrastructure

*Scale Computing will provide term coverage for up to 12 months.

Why SC//Platform?

Scale Computing's award-winning hyperconverged approach provides a streamlined path to virtualization that is simple, secure, and reliable.

With SC//Platform, you can reduce unplanned downtime by up to 90%, reduce your Total Cost of Ownership (TCO) by 40%, and manage your entire infrastructure from a single pane of glass with Scale Computing Fleet Manager.

We'll cover your remaining VMware term at no cost!
