

# INTEGRATED STEM

Develop a clearer picture of your educators' beliefs about the practice of Integrated STEM. This survey is specific for an audience of **teachers/staff**.

Survey results are displayed on the dashboard for the following categories: **Beliefs** and **Implementation**. Each question follows a 5-point scale: 1 = Strongly Disagree to 5 = Strongly Agree.

By viewing data in the Integrated STEM Survey Dashboard, you can identify changes in opinions from each survey cycle, compare results among buildings and departments, and identify areas in need of the most attention.

*The sample set below comes from the Integrated STEM Survey*

- I could explain to someone else what integrated STEM instruction is and looks like
- I feel comfortable engaging students in integrated STEM learning where there are various approaches and no clear-cut answers.
- Integrated STEM learning experiences are a place where I can draw and leverage the strengths of each student.
- I have the knowledge I need to assess students in meaningful ways both during and after integrated STEM learning experiences
- I feel comfortable navigating students' different approaches and knowledge sets they bring to an integrated STEM learning experience.
- I believe that integrated STEM learning is a catalyst to develop the next generation of thinkers, advocates, and creators ready to solve the biggest problems in our community and beyond.
- I find implementing integrated STEM learning experiences to be enjoyable.
